Abstract

Interview Guide for the Management Team on School Climate.

The school climate (SC) is defined as the conditions present within a learning environment that influence the development of educational practices in the context of the school. A positive school climate is crucial for enhancing learning opportunities, student academic performance, and the overall quality of daily schoolwork, thereby promoting educational sustainability.

This guide was used in the funded research projects "Diagnosis of Educational Performance in Primary Education: A First Step Towards School Effectiveness" (US-1263333) and "Analysis of Andalusian Schools with Very High and Very Low Effectiveness: Guidelines for School Improvement" (EDU2017-84649-P), led by principal investigators Juan-Jesús Torres-Gordillo and Javier Rodríguez-Santero.
