Abstract

Patient samples will be obtained during an elected cesarean (c-section) delivery. We will enroll an equal number of male and female fetuses.

1 **Inclusion**

- Between the age of 18-50 years of age
- Currently having a single birth (e.g. one baby)
- Pregnancy is the result of natural conception
- Elected for physician to perform a cesarean section for delivery
- Pregnancy reaches full term (≥ 37 weeks)

2 **Exclusion**

- Pregravid BMI > 35
- Any health conditions including diabetes mellitus, cardiovascular disease, hypertension, or inflammatory disease
- Any history of preeclamptic or complicated pregnancy prior to current pregnancy
