Plasmid map of the pAmpPSBA construct from [dx.doi.org/10.17504/protocols.io.4r2gv8e](https://doi.org/10.17504/protocols.io.4r2gv8e)

There is a similar construct for giving *Amphidinium carterae* chloramphenicol resistance, details of which can also be found in the eLife paper referenced above.
