Zuykova EI, Simonov EP, Bochkarev NA, Abramov SA, Sheveleva NG, Kotov AA (2018) Contrasting phylogeographic patterns and demographic history in closely related species of *Daphnia longispina* group (Crustacea: Cladocera) with focus on North-Eastern Eurasia. PLoS ONE 13(11): e0207347. doi: [10.1371/journal.pone.0207347](https://doi.org/10.1371/journal.pone.0207347)

ABSTRACT

Here we studied the genetic polymorphism of the ribosomal *12S* and protein-coding *ND2* mitochondrial genes in three closely related taxa of the *Daphnia* (*Daphnia*) *longispina* complex, namely *D. galeata* Sars, *D. longispina* O.F. Müller and *D. dentifera* Forbes, and performed an analysis of phylogenetic relationships between these taxa based on concatenated sequences of two genes.
